

Eyob Simachew

Full Stack Developer | Web and Mobile

Addis Ababa, Ethiopia | +251-98-0263-141 | eyobsmax@gmail.com
<https://github.com/Eyob-smax>

Summary

Backend-leaning Full-Stack Engineer with 3 years of experience building and deploying scalable web applications. Strong in JavaScript/TypeScript backend development using Node.js (NestJS, Hono, Fastify) and Bun, with additional experience in Spring Boot and FastAPI. Solid frontend skills with React.js and Next.js. Skilled in designing RESTful APIs, integrating databases, and delivering production-ready systems through CI/CD, automated testing (Vitest, Jest, Pytest), cloud services, and DevOps best practices. Collaborative team member with a track record of shipping reliable features end to end.

WORK EXPERIENCE

Eaglepoint AI, Remote

Full Stack Engineer and AI Trainer

Aug 2025 - Present

- Contributed to training the ByteDance Seed large language model by authoring high-quality solutions to programming problems, writing clear step-by-step technical explanations, and documenting reasoning and edge cases.
- Built comprehensive automated test suites (unit/integration) for generated solutions to validate correctness, robustness, and constraint handling.
- Produced structured training data used for supervised fine-tuning (SFT) and reinforcement learning (RL) workflows, improving model reliability on coding tasks.

Addis Ababa, Hybrid

Backend Developer, Contractual

Aug 2025 - Present

- Built a data collection platform for a university to gather high-volume AI training data in local languages including **Amharic, Tigrigna, and other indigenous languages**.
- Designed and implemented a role-based access system with multiple user roles: **Contributor, Validator, Project Manager, and Super Admin**, enabling secure workflows and traceability.
- Developed **automated and manual dataset validation** pipelines to improve data quality, including review flows and validation rules.
- Implemented **CI/CD pipelines** and comprehensive **automated testing** to ensure reliable releases and maintainable code.
- Deployed the system to a **bare-metal campus server** and actively monitor uptime, performance, logs, and operational health in production.

Brana Technologies, Addis Ababa, Ethiopia

Backend Developer

Jun 2025 - Jan 2026

- Worked as a Backend Developer using **NestJS** to build and maintain **Sabisa**, a social media

management platform, delivering scalable APIs and backend features to support core product workflows.

- Refactored a legacy **JavaScript** Node.js (**Express**) codebase to **TypeScript**, reducing bugs by **35%** and improving overall system performance by **10%** through improved type safety, code structure, and runtime optimizations.

EDUCATION

Addis Ababa University , Addis Ababa, Ethiopia

Bachelor of Science — Information System

SKILLS

Soft Skills: Problem Solving, Communication, Adaptability, Attention to detail

Languages: Javascript, Typescript, Python, Java, C++, SQL

Frameworks & Services: React.js, Next.js, Nest.js, ReactNative, Node.js, AWS

Testing and Libraries: Redux, Zustand, TailwindCss, Shadcn, JWT | Vitest, Jest

Tools: Docker, Git, Kubernetes, Github Actions, Vercel
